

ANNUAL DECLARATION OF INTERESTS (ADoI)

(Please note that high quality of scientific expertise is by nature based on prior experience and that therefore having an interest does not necessarily mean having a conflict of interest)

Name: OCKLEFORD, Colin

Title: Professor

Profession: Medical Research and Teaching

Current EFSA involvements: Member-PPR Panel 2012-2015 (PPR), Member-INEX Reviewers (EXO), Member-WG on the developmental neurotoxicity of acetamiprid and imidacloprid (PPR)

Nature of Activities	Period	Organisation	Subject matter
I. Economic interest			NO INTEREST
II. Member of a management body or equivalent structure	01/1980 - now	-Name: Anatomical Society http://www.anatsoc.org.uk/	Learned society. Newly reelected to the Council as from December 2012. I am presently a committee member of the investment committee, research committee, meetings committee and constitution committee. This organisation is managed and complies fully with UK Charities law and promotes the interests of scientific publication and professional development in anatomy under an elected council. Tasks are delegated to sub-committees of ordinary members appointed by Council. These advise on investment strategy, publish two Journals (Journal of Anatomy and The Ageing Cell), make grants to support research, organise scientific meetings and ensure compliance with the law and the aims of the society respectively. The Anatomical Society may choose to publish research or to promote information of interest to its members through meetings newsletters etc. Areas of interest are unlikely to overlap with EFSA's.

III. Member of a scientific advisory body	07/2012 - now	-Name: Home Office UK Government	<p>The Poisons Board remit is to advise UK Home Office Government Ministers on the Poisons List and the regulations governing manufacture, possession and sale of toxic substances. Advice is delivered in the form of written advice.</p> <p>I am a member of the Poisons Board.</p> <p>I have a vote, no right of veto but may deliver a minority report.</p> <p>The reports generated so far do not concern any of the activities or issues addressed in my role for EFSA.</p> <p>I have not been a member of an EFSA panel previously.</p> <p>The Poisons Board is a Board set up by act of Parliament. Advice offered by the Board has to be considered by Ministers under the Law of the UK.</p>
	01/2007 - now	-Name: Advisory Committee on Pesticides	<p>I am a member of the working group PAHES which is an advisory body set up to make a detailed examination of pesticides incidents information sources and to write a report advising how such information gathering can be improved. I was appointed by the Chairman of the Advisory Committee on Pesticides (ACP) which is a regulatory body set up by the government as an advisory committee to the Department of the Environment Food and Rural Affairs government ministers. The PAHES working group aims to review sources of information on pesticides incidents and our output (now released for comment at the annual ACP open meeting) is a written report recommending improvements in management of information at a national level in this area. We do not vote but work by consensus. We publish the advice we give that is commented on by government ministers and other stakeholders. Once the report is published (December 2012) the committee will cease to function.</p>
	01/2006 - now	-Name: Chemical Regulations Directorate	<p>I am an ordinary member of this advisory body the Medical and Toxicology Panel with tasks that include horizon scanning published epidemiological literature and other data relevant to pesticide regulation. I am a member of this group and was appointed by the Chairman of the Advisory Committee on Pesticides (ACP). The group studies published original scientific papers (including epidemiological studies) and reviews concerning pesticides and identifies important findings. Views of the committee might be used by the Department of the Environment Food and Agriculture (DEFRA) in the UK to commission research and advice is passed to the main committee the Advisory Committee on Pesticides (ACP). The committee does not vote on issues.</p>
	01/2005 - now	-Name: Department of the Environment, Food and Rural Affairs	<p>I am a full independent scientific member of this committee the Advisory Committee on Pesticides. The committee is established by act of parliament and DEFRA ministers are required by law to consider the advice it presents through its chairperson. It has a regulatory role for the approval of pesticides within the UK and provides input to European approvals processes when the UK is acting as Rapporteur Member State. The committee operates by consensus and does not generally vote but if a vote were taken I would have one. Equally if a report conclusion by the majority was unacceptable to me as a full member I would have the right to express a minority view. As the committee is a legal entity set up by act of parliament and appointments and renewals of membership such as mine are made by government ministers.</p>

IV. Employment	09/2005 - now	-Name: Lancaster University	<p>Employer is a public body with interests in education and research for public benefit. Its legal remit is governed by an act of parliament. I do not know of any work in the University on pesticide development or evaluation related to approvals authorisation. When employees of the organisation take up regulatory assessment of toxicity roles such as my own on the ACP and the Poisons Board they act as independent individuals not on behalf of the University. Lancaster University does not and has not developed and published regulatory authority guidance or methodologies used in the pesticides regulatory process; Equally the organisation is not the owner/does not have rights in software and/or computational models used in the regulatory process. Lancaster University has no official capacity as a PPP Risk Manager or authoriser of Plant Protection Products, Minimum Residue Level setting, control or monitoring activities.</p> <p>My position in the organisation is that of a Professor in the Lancaster Medical School and Chair of the Research Committee of Lancaster Medical School. I teach medical sciences and research the reproductive and developmental pathology of the maternofetal interaction. Therefore my employment has not involved any of the following: 1) Any research and consultancy activities in the field of the PPR Panel carried out on behalf of the organisation and funded by payments from external (public, EFSA or private) organisations to the employer. 2) Any involvement in national or international regulatory body (committee, meetings active in the field of the PPR Panel as a representative of the University. My role as an independent member of the UK Advisory Committee on Pesticides and the Poison's Board are independent of my employment at the University. 3) There is no contract between my employer and EFSA in the area of PPP.</p>
V. Ad hoc or occasional consultancy			NO INTEREST
VI. Research funding			NO INTEREST
VII. Intellectual property rights			NO INTEREST
VIII. Other membership or affiliation	12/2010 - now	-Name: Academy of Medical Educators	The Academy of Medical Educators is an organisation that supports professional development of medical educators and encourages the improvement of Medical Education in the UK. I am an elected Fellow but am not a member of the Council or any other decision making body of the Academy.
	01/2010 - now	-Name: Royal College of Surgeons of England	I am a basic sciences examiner for Membership of the Royal College of Surgeons of England. This postgraduate qualification (MRCS Eng.) is required for a doctor to confirm specialisation in a surgical career.
	01/1980 - now	-Name: Royal College of Pathologists	Fellowship of the Royal College which promotes research and training in Pathology and validates the qualifications of clinical pathologists in the UK.
IX. Other relevant interest			NO INTEREST
X. Interests of close family members			NO INTEREST

I hereby declare that I have read both the Guidance Document on Declarations of Interests and the Procedure for identifying and handling potential conflict of interests and that the above Declaration of Interests is complete.
