

BIOGRAPHY

June 28, 2012

Title and name

Prof. Roland Lindqvist

Nationality

Swedish

Panel

Biohaz

Education

Doctor of Philosophy 1993, University of Lund, Sweden

Master of Science (MSc) in Scientific Subjects Education, 1984, University of Lund, Sweden

Scientific and risk assessment experience

Risk assessments of food- and waterborne hazards

Microbial safety of fermented foods,

Epidemiology of foodborne illnesses,

Predictive microbiology

Public health burden of bacterial pathogens

Detection of bacterial pathogens in food by using PCR techniques

Main scientific publications

Risk assessment and public health burden of foodborne hazards, Epidemiology of foodborne illnesses, Predictive microbiology, PCR detection of bacterial pathogens

Toljander, J., A. Dovärn, Y. Andersson, S. Ivarsson, R. Lindqvist. (2012). Public health burden due to infections by verocytotoxin-producing *Escherichia coli* (VTEC) and *Campylobacter* spp. as estimated by cost-of-illness and different approaches to model disability-adjusted life years. *Scand J Public Health*, 40(3): 294-302.

Ottoson, J.R., Nyberg, K., Lindqvist, R., and Albiñ, A. (2011). Quantitative Microbial Risk Assessment for *Escherichia coli* O157 on Lettuce, Based on Survival Data from Controlled Studies in a Climate Chamber. *J of Food Protection*, 74, 12:2000–2007.

Rosengren, Å., Fabricius, A., Guss, B., Sylvén, S., Lindqvist, R. (2010). *Staphylococcus aureus* in cheese produced on farm-dairies. *Int. J Food Microbiol.* 144:263-9.

Lindqvist, R., and Lindblad, M. (2009). Inactivation of *Escherichia coli*, *Listeria monocytogenes* and *Yersinia enterocolitica* in fermented sausages. *Int. J Food Microbiol.* 129: 59-67.

Lindqvist, R. and Lindblad, M. (2008) Quantitative risk assessment of thermophilic *Campylobacter* spp. and cross-contamination during handling of raw broiler chickens evaluating options at the producer level to reduce human campylobacteriosis in Sweden. *Int. J. of Food Microbiol.* 121: 41-52.

Lindqvist, R, Sylvé, S., Vågsholm, 2002. Quantitative microbial risk assessment exemplified by *Staphylococcus aureus* in unripened cheese made from raw milk. *Int. J. Food Microbiol.* 78:155-170.

Lindqvist, R, Andersson, Y, Lindbäck J, Wegscheider M, Eriksson, Y, Tideström, L, Lagerqvist-Widh, A, Hedlund, K-O, Löfdahl, S, Svensson, L, Norinder, A. 2001. A one year study of foodborne illnesses in the municipality of Uppsala, Sweden. *Emerging Infectious Diseases.* 7 (3):S588-592.

Lindqvist R., and Westöö, A (2000) Quantitative risk assessment for *Listeria monocytogenes* in smoked or gravad salmon/rainbow trout in Sweden. *Int. J. Food Microbiol.* 58:181-196.

Lindqvist, R. 1997. Preparation of PCR samples from food by a rapid and simple centrifugation technique evaluated by detection of *Escherichia coli* O157:H7. *Int. J. Food Microbiol.* 37, 73-82

Lindqvist, R. & Enfield, C.G. 1992. Biosorption of Dichlorodiphenyltrichloroethane and Hexachlorobenzene in Groundwater and Its Implications for facilitated Transport. *Appl. Environm. Microbiol.* 58:2211-2218.
